President/CEO:

Gene Griffith ggriffith@patriotethanol.com

Plant Manager:

Rick Vondra rvondra@patriotethanol.com

Commodities Manager:

Judd Hulting jhulting@patriotethanol.com

Size:

- 130 million gallons of ethanol capacity
- 41 million bushels corn grind per year
- 350,000 tons of DDGS produced in 2010. International markets have become an increasingly significant export for Patriots Renewable Fuels, LLC. These exports will bring nearly \$35 million back to the U.S. in balance of trade.

Rail Lines:

Patriot is located directly on the Iowa Interstate Railroad. This access connects Patriot to all class I railroads and allows shipment throughout the world.

Number of Employees:

52

Environmental Advancements:

In an effort to conserve water and provide even greater sustainability, Patriot has achieved the status of zero liquid discharge (ZLD). It makes a clear statement about Patriot's commitment to progressive research and efficiency. Patriot is one of the first ethanol plants in the United States that has made this technological advancement.

Startup Date:

January 2005

Mission Statement:

Patriot Renewable Fuels, LLC's mission is to produce high quality, environmentally conscious renewable fuels that will promote energy independence for our community and the nation.

Values:

Committed: Promote energy independence within the community and the nation.

Resourceful: Produce an environmentally conscious, high quality renewable fuel.

Accountable: Create good paying jobs within the community.

Teamwork: Work in partnership with local corn producers and other business partners in a mutually beneficial manner.

Integrity: Conduct business with honesty and trustworthiness.
